SAMPLE SCHEDULE FOR BA IN ECONOMICS

Below is a sample schedule that enables students to complete the BA in Economics in four years. *It only lists the courses required for the economics major.* This is obviously not the only schedule that would enable you to complete the major in four years. For example, you could catch up on some prerequisites over the summer if necessary. Also note that the schedule fulfills the *minimum* requirements for the degree. Students are encouraged to enhance their degrees by taking additional economics and quantitative courses.

FRESHMAN YEAR

Fall
